## **DETAILED ACTION**

### ***Response to Arguments***

1. Applicant's arguments with respect to claims 1, 15, 16, 22-24, 34 and 39 have been considered but are moot in view of the new ground(s) of rejection. Upon a thorough re-reading of applicant's specification, it is evident that the applicant uses terminology that is vague and renders the claims indefinite, as discussed below.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1, 15, 16, 22-24, 34 and 39 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The terms "highest" and/or "higher" and/or "lowest" and/or "lower" and/or "intermediate" in claims 1, 15, 16, 34 and 39 are relative terms that render the claims indefinite. The terms "highest" and/or "higher" and/or "lowest" and/or "lower" and/or "intermediate" are not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably apprised of the scope of the invention.
